WHERE DO WE GO FROM HERE?

We do not always recognize a new condition by its proper name, many times the very name itself is a scare crow, and for this very reason the change conditions confronting the average American citizen within the last six weeks has not been recognized as the first chapter of our reconstruction period. While the great majority of us have not had first hand evidence of any fundamental or appreciable change there are unmistakable signs of a new and more or less chaotic condition ahead. Just how much confusion and disarrangement is experienced depends entirely on our understanding of the situation and the spirit in which we, as individuals, accept it.

The first break in this nation's onward march of industrial achievement came with the stagnation of the motor and tire industry in the middle west, an occurrence which while being hard on those particular industries and the communities dependent on them is not without its blessings. A blessing in that thousands of workers will be returned into the production of goods, necessities and an indication that extravagant purchases of automobiles by so many who could ill afford them were on the decline. Closely following the shutting down of these factories the average small business man decided on a rigid policy of retrenchment and has refused to make any expansions or improvements of any nature and in large measure has even been letting repairs and replacements go until he would not have to find for material and labor. Even the small house owner has left his painting, spouting, fencing and other repairs go. In the larger realm of business this policy would have been carried out more than a year ago had it not been "convenient" for thousands of our big corporations to repair and re-whet not everything they owned to use up the big profits they made while doing their periodic "fixing up" last, but not least, of the signs is the systematic laying off of thousands of railroad workers all over the country. This laying off of men in a wholesale manner is not at all a sign of lack of business. The whole world is in a state of confusion and with big vision and big aims have greater things in mind for the near future than we dare dream of. But the whole world is not able to pay for our production of goods and services and we are going ahead selling our goods at a price which is not what we will receive for them in a world market, our shelves laden with high priced goods and no buyers. Already this condition confronts us both as producers and consumers. We cannot sell because our customer will not pay the price, neither will we buy, except the necessities, because we feel we cannot pay the price asked. The railroads took their course of action for no other reason than to try to break up a condition wherein the laborer was demanding more than the tradesman or the skill of artisan and they no doubt hope that they will be able to fill his place with those who will accept a lower rate of pay and be receptive to ideas of efficient management. There is much in the news of the day about unemployment but in our opinion it is greatly exaggerated. Only in some communities is there real unemployment, and in these there would be little or none if the man was really looking for work instead of work to his taste. This frame of mind is more evident among young men than among the elder workers. Too many of them are still sticking their feet under Dad's mahogany at meal time. Big business organizations are said to be drawing up battle lines against the "closed shop" and almost daily we see where some paid secretary or publicity bureau declares the war is about to begin. Big business will do well to save its money by such methods. The open shop will come only when there is real unemployment and the exigencies of life make it necessary for a man to look out for self first.

The business situation as a whole is not discouraging. It is indeed bright. Any business man will tell you what he hopes to do "when things come down." The home owner is planning a couple more rooms to his house "when things come down." The young man living in a two room apartment with his young wife has plans for that little nest "when things come down." The true American spirit lives and must find an outlet. We have the same enthusiasm and an unlimited supply of hope and confidence.

Just now the producer is making a vain effort to keep prices to their former level, the laborer still demands his old wage. The producer argues that his costs on the article he has for sale were not lessened and the laborer tells us that he has seen no reduction in his living costs. Granted that both are right in their contentions, and making no allowances for the fact that there have been reductions favorable to both although almost negligible in size, both must remember that both must capitulate to the new conditions. To go on as we are will simply run us up against the stone wall of foreign competition and make sellers of all with no buyers. The manufacturer knows full well that he is taking a big gamble in producing goods for next spring's market on today's costs. The farmer cannot afford to tie up his 1920 wages in 1921 crops. Can we not appreciate what this means to the other fellow as well as to ourself? The bulk of business, the business that makes the wheels go around, is transacted months ahead of production, but who is there today who is willing to take orders for three months hence? Even in our own small business as publishers we would not take an order at a stipulated price for March delivery.

Nothing but pure American ideas of fair play can right these conditions. If the interests representing capital seek to bring about the elaborating conditions of ten years ago they will find labor showing a hand bigger than they ever realized. If labor continues arrogant and tyrannical it will find, in the chaotic conditions to follow in the next decade, that she will reap as she sowed—with ten fold measure.

Can we not pull together? The path of progress is open. Prosperity is just ahead but we must share it, not hog it.

HOW A CHICKEN FEELS

We now know how a chicken feels—the kind with feathers on—when it is chased across the road and only escapes being run down by an eye winker. We had a similar experience down at the corner of Third and Market Sts., Saturday night about 7 o'clock. Our own wife sent us down street with a basket on our arm to do some shopping, while she loafed around about the house. We were negotiating the crossing at Third and Market in the usual even tenor of our way and was half way across when a friend called to us saying, "Look out, Skinny; there comes a crazy driver up Third street, he'll catch you on the curve." Casting our good right eye down Third street we saw a car bowling along in our direction at a pretty rapid rate. Quickening our gait we hastened sidewalkward. Before we had taken three steps the monster was upon us. The car swung around the corner at a 30 mile an hour gait, and despite the fact that the driver clamped on his brakes the machine slid by our rapidly disappearing rear end exposure, the fender rattling the buttons on the tail of our overcoat as it grazed us. This, too, despite the fact that although we are built more for beauty than for speed, we hustled the last ten feet of that crossing almost too quick for the timers to catch us.

The car stopped in front of Leitzinger's store and we visited our wrath on that driver. In fact our celluloid collar was fairly smoking when we reached his side. What was said was plenty and added somewhat to the general heat. About that time Mayor Chase, who had witnessed the happening, was on the scene and after a proper reprimanding, assessed the reckless driver the sum of \$7 and allowed him to proceed with a parting admonition as to his future conduct.

We have given you the facts in this happening because we want to point to a moral. The moral is that nine out of every ten automobile drivers in this town are driving recklessly and at top speed around every corner in the town and that we are spared serious and frequent accidents is purely a matter of good luck. Several citizens who witnessed the scene spoken of kept tab on cars passing that corner for half an hour Saturday evening and for an hour's time on Sunday and in almost every case the turn was made at a speed in excess of 15 miles per hour.

This dangerous practice will continue until a serious accident occurs, then it will stop—for a time.

The borough authorities should see that it stops right now. The only way to stop it is to arrest and fine every automobile driver who turns a corner at more than ten miles per hour. Even that speed is entirely too fast, but if we can get them down even that low pedestrians may stand some small chance for life and limb.

Bells Warn of Priests.
Innumerable and interesting are the traditions surrounding bells. Bells, or substitutes thereof, have ever played an important part in religious ceremonies. In the books of Exodus and Leviticus the commands of the high priest's ephod include bells, so that "their sound might be heard whenever he goeth in or cometh out of the sanctuary." Their use in the eastern church obtains even to this day, bells being found as they were of old on the fringe of priestly garments.

Origin of Pensioners.
The practice of pensioning or insuring sick and wounded soldiers is said to have been started in England by Oliver Cromwell.

Food Supervision.
The importance of food supervision as a measure of preventive public health is obvious. The average citizen does not realize how deeply he is indebted to the public health authorities on the question. Were it not for this supervision, plagues poisoning would exact a fearful toll from our citizenship in the form of suffering and death.

The Chinese Year.
Like our own leap year, every third year in China is longer than its predecessors, but the Chinese add a whole month, instead of an extra day, to make up for the time lost, according to their calculation of the calendar.

Romance Chocolates

Any one who has ever been in love knows that there is nothing so delicious as a chocolate. Romance Chocolates are the most delicious of all. They are made from the finest ingredients and are of a most delicious flavor. They are sold in all the leading stores.

Camel CIGARETTES

Dallas, Texas, Sunday

DEAR OLD BOY PETE!

This corner of the U. S. mainland is so wonderful in its bigness and bustle I guess I go mouth wide open and eyes staring! Why, Pete, Texas don't talk in miles—it doesn't mean anything! They'll tell you that this place, or that, is an all-day trip, or two days and a night distant, etc. And, old yardstick, you've got the feet, just let it sink in deep that Texas is not only over 800 miles wide but it is our fifteenth state in population!

Heard a bird in the Adolphus Hotel say that when he comes off the west border he figures he's close home to Baltimore when he's across the Lone Star State! Talk about "jumps"! Try a few, say the one between Texarkana and El Paso!

Pete, everything grows big down here—business as well as folks' hearts! I like the way they never forget! Here I was walking on Main Street yesterday when a fine type of man as ever wore one of those broad Texas smiles came up to me. "How are you, Lieutenant?" says he. "Maybe you'll call back that day at Camp Dick when I brought over that bunch of Camel Cigarettes for the boys," he continued. Right then a Camel conference opened!

Golly, Pete, this party costs Camel compliments faster than the mint makes money! "Lieutenant," says he, "I know when I'm 'set'! I've smoked cigarettes for five years! (NOW LISTEN, PETE!) I know Camels and I know their marvelous mild, mellow body and refreshing flavor and wonderful Turkish and Domestic blend! A million Camels wouldn't tire a smoker's taste!" Now, Pete, I'll say that's some testifying!

Sincerely

Shorty

P. S.—Between you and me I'll be gazing at tall buildings and things around 43d and Broadway—N. E. W. Y. O. R. E.—about the way this nice little Boston's Best Day! Write me at the same old stand!

American Zionists Confronted by Big Task in Palestine

(Continued From Page One.)

The Zionists declare that most of the money and constructive advice as well as the technical skill required for Palestine's development must come from the Jews of this country.

Two viewpoints have developed in connection with the practical means that will be necessary in order to secure the maximum participation of all Jews and even of a large number of non-Jews. One view favors the creating of a "Palestine Foundation" fund, which shall include investments, quasi-investments and outright gifts, and all who desire to participate shall do so by acquiring stock in this foundation, the majority control of which is to be held by the world-Zionist organization.

The other viewpoint is based on the assumption that the action of the Peace Conference last May in officially recognizing the Zionist claim to Palestine ended the political phase of the movement. It contends that the machinery of the organization should now be remodelled to permit the participation of those elements in American Jewry who have ignored its political phase. The supporters of the viewpoint regard the organization undertakings, but this control they argue must be held by individuals who will instill confidence in the in- for the Jewish people, of Palestinian as committed to the control by Jews vestors. They favor the organiza- tion of separate corporations for the financing and control of public en- terprises in Palestine, with a board of trustees, not limited to Zionists, holding founders' shares in each of these corporations, which are to be distinct and not interlocking opera- tions. They are opposed to lumping donation and investment into one fund. Funds for such undertakings in Palestine as cannot produce finan- cial returns, they contend should be raised by outright gifts.

Whichever viewpoint prevails, the Zionists are agreed that the conven- tion will have to remodel the machin- ery of the organization so that it can concentrate on the development of Palestine.

Give her a Hoover and you give her a sense of pride in an immaculate home. You give her an electric carpet-beater that flutters out all injurious embedded grit; an electric carpet-sweeper that brightens colors, straightens nap and collects all stubborn, clinging litter; and an electric cushion cleaner that removes surface dirt. Only The Hoover combines these three essential devices in one. And it is the largest-selling electric cleaner in the world.

The HOOVER
 It BEATS... as it Sweeps as it Cleans

Let us demonstrate The HOOVER on your own rug or here in our store. Convenient terms may be arranged.

The Adjustment Sales Started With a Vim and a Vigor

About 100 Young Mens' Suits in 3 Groups and Priced Low
\$5.75 \$7.75 and \$15.00

Frankly some of these suits have been here too long. Some of them have not been popular colors. All of them, tho, I will say, are worth in many cases five to six times their present marking.

They're mostly small sizes but complete suits—coats, vests and pants—and the former price tags are still on them so you can see the big savings.

Saturday was a banner day with a lot of folks. They came to take advantage of our adjustment of prices. These prices come in doubly interesting just now in view of the fact that you can buy a great many of your Xmas gifts and buy more.

A Clean Saving of \$40 to \$45 on

John E. Herdman, and J. P. Smith, of Canonsburg, Pa., are home to enjoy the season at the Goshen and Pitch Pine camps the coming two weeks.

Proposing Made Easy.

In Siam a declaration of marriage is very simple. It is considered a proposal merely to offer a lady a flower, or to take a light from a cigarette if she is holding it in her mouth, so that even the most timid youths need not fear the ordeal.

council has received back from the Curwensville Water company that new water contract which was returned to them for revision several weeks ago, and that final action would be taken on the signing of the same provided that it met the approval of the board, which it is more than likely that it will this time.

Relatives here received a telegram on Saturday forenoon announcing the death of Clyde Spencer, which occurred in the city of Chicago that day by being smothered by smoke in a burning building. Mr. Spencer was connected with the fire department in South Chicago, holding the position of engineer and assistant chief. He was a son of Jason and Fannie Spencer and was raised on a farm near Bridgeport. He followed the farming trade for some years, or until he went to Chicago about fifteen years ago. He followed the fire police department of that city for several years and then transferred

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and youthfulness to hair when faded, streaked or gray

That beautiful, even shade of dark glossy hair, can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre to your hair.

Everybody uses "Wyeth's Sage and Sulphur compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Foley's Honey and Tar Compound

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "snuffles," and that tight, wheezing breathing, it stops croup, too. It eases and breaks whooping cough, measles cough and bronchial cough.

Every User a Friend.
"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughed any, and next day her cold was gone."
"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."
Foley's Honey and Tar has been used for more than thirty years in thousands of homes for relief from coughs, colds, spasmodic croup, tickling throat, hoarseness, whooping cough, bronchial coughs and the coughs that follow influenza or a gripe.

One Of These Electric Washers Would Make A Pleasing Gift For Your Wife

You'll know that you have given something that will give lasting pleasure for years to come.

We have the one for \$95 then the Automatic for a few dollars more, and lastly the higher priced Thor.

Terms can be arranged. Think it over.

Electric Supply Co.

Indian Cradle Boards.
There are nine different kinds of cradle boards used by the various tribes of North American Indians. The Eskimos did not use such a board. The baby was wrapped in the hood of the mother's fur coat. In the most southern tribes the baby was merely bound to the mother's back by a strip of cloth long enough to hold it.

No Substitutes Handy.
A New York physician says that what we need is fewer drug stores. Maybe—but where would one buy toothbrushes and cigarettes and postage stamps—and where would one go to have a look at the city directory? —Cleveland Plain Dealer.

Friendly Advice.
"I can sign this pitcher for twenty minutes in vaudeville or I can place him with a four-act play." "I advise him to take vaudeville," said the team manager. "He can't go a long route." —Louisville Courier-Journal.

RED PEPPER HEAT QUICKEST RELIEF FROM RHEUMATISM

Concentrated Heat Penetrates — Brings Quickest Relief

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, strains, aching joints. When you are suffering so you can hardly get around, just try "Red Pepper Rub" and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes, it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and pain is gone.

Rowles Red Pepper Rub made from red peppers, costs little at any drug store. Get a jar at once. Almost instant relief awaits you. Use it for colds in chest. No matter what you have used for pain or congestion, don't fail to try Red Pepper Rub.

The Gift Supreme —A FINE PIANO

Particularly is this true if the piano possesses the tone and quality such as are found in our high grade pianos. There are fewer things in home life that make for happiness and contentment as a gift of this kind.

We are proud of our present selection—moderately priced, when one considers the exceptionally high standard of Pianos.

Curwensville

Considerable excitement was prevalent in Curwensville Friday evening when it was reported that Dr. Richard had met his death in an automobile accident while returning from a visit to a patient. The report must have spread rapidly as inquiries as to its truthfulness came from Clearfield, New Milport, Lumber City and a number of other towns. The rumor was utterly false and from whence it started, no one seems to know. It is very inconsistent?

Don't forget the big Sauer Kraut Supper at the Lutheran church to-morrow evening. We have plenty of kraut and you can have all you can eat. 11:20-ltc

DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples
A headache remedy without the danger of headache medicine. Relieves headache and the miserable feeling from colds or congestion. And it acts as an excellent Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can it affect stomach and heart, as some internal medicines do.
Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

MUSTEROLE

Summit sale leather tannery has about shut down, and there will be nothing doing at that industry for an indefinite period, excepting that the carpenter crew will continue working on some very much needed repairs. Shortage of hides is not the cause of suspension as a great many people suppose, but the company has on hand a surplus of high priced leather which will have to be disposed of before work is resumed. A number of tanneries owned and operated by this company are in the same boat as the one in Curwensville and are also idle. The men who were employed here are shifting around looking for other employment, and some of them have already left the town and probably will not return when the plant does start up and resume operations.

OPERATIC STARS ARRIVE FOR BIG CONCERT TONIGHT

The High school pupils were given an advance treat by the members of the Allen-Fabiani concert company this morning, when Miss Margot Ladd, the premier danseuse, appeared between classes and gave them an entertaining little talk, in addition to brief artistic delineation of her artistic accomplishments. Miss Ladd is a highly talented French woman and a most interesting talker. She was accompanied by Prof. Acuna, on the piano. The professor is a talented musician and the two artists greatly delighted their audience and were the recipients of vociferous applause. They were introduced to the High school by Miss Edna Johnson.

Miss Ladd and Prof. Acuna are old friends of long standing and had been in town together for several years.

They met in Clearfield yesterday for the first time in two years and the meeting was a joyous one. On one occasion while the company with which Miss Ladd and Prof. Acuna was touring Mexico they were held up by no less a personage than Pancho Villa and his bandits, and while Gen. Pershing and his doughboys were unable to lay a finger on Pancho during their expedition after that wily villain, Miss Ladd danced her way into his heart sufficient to have the man-killer release the party without further ransom after the danseuse had interpreted a few of her classic dances on an improvised stage at a station platform in the Mexican mountains for the entertainment and delectation of the desperate banditti.

August Perisse, the noted tenor, accompanying the Allen-Fabiani company, in company with Miss Ladd made The Progress office a brief call this morning. They are both very entertaining people and as both were on the bill at the New Orleans Opera House the night that prominent theatre burned, they also have had some thrilling experiences in common.

GETTING A GOOD START EVERY DAY

Red-Blooded Men and Women are Up and doing Bright and Early

FREE YOUR BLOOD FROM POISON

Take Pepto-Mangan the Famous Blood Tonic Prescribed by Physicians for 30 years

Sluggish blood clogged with poisons makes you lazy. You never feel like getting up in the morning. And when you do get up, you miss that feeling of refreshing rest. You feel more tired than when you went to bed. After a good night's sleep you should get up with a spring, feeling alive, renewed, refreshed.

And you would, too, if your blood were full of red corpuscles. Your complexion would look fresh, your eyes bright and clear; you would feel the warm tingle of good health.

Look to your blood if you have that lazy, heavy feeling in the morning. Begin taking Pepto-Mangan—the ideal tonic. It has blood-building properties that pick you up and give

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is prepared in both liquid and tablet form. Both have the same medicinal properties.

Sold at any drug store. But be sure you get the genuine Pepto-Mangan—"Gude's." Ask for it by the full name and be sure the full name, "Gude's Pepto-Mangan," is on the package.

Mrs. Mabel Bloom is visiting with Mrs. Alice Tapper London, whose home is in Akron, Ohio, that lady at present being a guest in the home of her parents at Reynoldsville.

Rev. Young, a District missionary, preached in the Grace Lutheran church Sunday afternoon. This church has been without a minister for some time, but the congregation expects to secure a permanent one shortly.

The Bowers Coal Company which is opening up several large mines near the town of Lumber City is pushing the work along rapidly despite the unfavorable weather for this kind of work. Something over one hundred tons of prime coal has already been taken out and stacked, awaiting the putting down of a switch from the main railroad track of the N. Y. C. to the tippie. All material is on the ground ready for the railroad company to make the connection via this spur of track, and the Bowers people expect that this work will be done within the next two weeks, when the coal already mined will be loaded on cars from the tippie and shipped to parties who have purchased it, together with all that the mines can supply for the next six months or more.

Mr. and Mrs. E. C. Frank, former residents of Clearfield, now of Philadelphia, spent Sunday at the home of Mr. and Mrs. Harry Mann.

Mr. and Mrs. James Sheridan left for Curwensville yesterday where they will make their future home.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the little cry of thousands since Dr. Edwards' Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and, moreover, a keen, keenly discerning the human body. Olive Tablets while trusting patients for chronic constipation and torpid liver.

Dr. Edwards' Olive Tablets do not contain calomel, but a healthy, soothing, vegetable laxative.

No gripping is the "brandy" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never cause that unnatural action.

If you have a "dark brown countenance" and breath—a dull, tired feeling—stomachache—torpid liver—constipation, you'll find quick, sure relief from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands tell them over and over again to keep right. Try them.

**A Laundry Problem
in Simple Division**

Our Family Laundry Service is merely a problem for you in simple division. Divide your present washing toil and worry by four, and you have your answer. Multiply by four the time you now have to yourself, and there's your proof.

We call for your family bundle and wash everything sweetly clean in soft, fresh, water, with the purest of mild, white soaps.

All your flat pieces, sheets, tablecloths, napkins and towels, are nicely ironed and folded.

Drying by aeration smoothes the wrinkles from night-gowns, pajamas, stockings, dressing gowns and slacks, leaving them ready to use.

Shirts and waists and aprons which need it are carefully starched.

Then we return your bundle, with four-fifths of wash-day's work done. There remains for you only the ironing of frilly, fussy pieces. The rest of the wash—the part that used to sap so much of your vitality and time in the old days—is ready for you to fold away.

Yes, it does sound good, and it's even better in practice. Just phone for our driver—we're satisfied a trial will convince you.
